UN-DUZ-IT

UN-DUZ-IT™ Protectant

Use to keep boats, RVs, outdoor furniture, pool and spa covers, vinyl liners, helmets, tires, visors and more **LOOKING LIKE NEW!**

UV inhibitors help prevent premature deterioration on a wide range of materials, including vinyl, natural and synthetic rubber, EPDM, plastic, PET, PVC, polyethylene, epoxy, powder coated metals, chrome, stainless steel, fiberglass, gelcoat and finished leather.

• Biodegradable • Phosphate Free • Chlorine Free • Ammonia Free • Hydrocarbon Free

NOTICE: DO NOT use on glass, carpet, concrete, grout, unfinished leather, suede, canvas or flooring.

Directions:

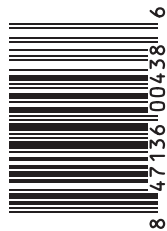

Use only on clean surfaces. Wash and dry surfaces prior to using Protectant. Do not use in direct sunlight.

1. Spray onto soft cloth then apply to surfaces in circular motion.
2. Wipe completely dry with clean microfiber cloth, then buff surface with clean soft cloth.
3. If you apply too much product, streaking can occur. If this happens, use a wet towel to remove excess protectant and immediately wipe surface dry.
4. Do not let this product air dry, or streaking can occur.

Apply every 3 - 5 weeks for maximum UV protection.

Store in a cool dry place. DO NOT FREEZE

Contents: water, benzotriazole polymer mixture, glycol solvent, 3(2H)-Isothiazolone, 2-octyl-; 2-Methyl-2H-isothiazol-3-one; 1,2-Benzisothiazol-3(2H)-one; ethanol
